INDEX OF SUBJECTS AND AUTHORS

Abdominal symptoms, Spontaneous pneumothorax (rupture of the lung) with, in the course of artificial pneumothorax, 98

Abscess, Lung, and tuberculosis, 236

Abscesses, Tuberculous, of the chest-wall as a complication of pulmonary tuberculosis, 228

Acid-fast bacilli, Saprophytic, from ureteral specimens, 91

Active and inactive tuberculosis, Leucocytic blood picture in, 66

ALEXANDER-JACKSON, ELEANOR. Studies on the dissociation of tubercle bacilli with special reference to the avian and human types, 767

Allergic, tuberculous, serositis, Experimental, and its relationship to human polyserositis, 755

AMBERSON, J. BURNS, JR. The process of resolution in pulmonary tuberculosis, 269

ANDREWS, C. H. First steps in pneumolysis, 36

ANDRUS, PAUL M. The mechanics of respiration, 139

Anthropometric study of tuberculous children, An, 348

Antisyphilitic treatment, tuberculosis, syphilis and, Interrelationships of, 10

Apical nontuberculous bronchiectasis, Bilateral, 61

Arizona, Southern, Papago Indian area of, tuberculosis survey in the, A. (Supplement), 405

Artificial pneumothorax and induced phrenic paralysis in the treatment of centrally located isolated pulmonary tuberculous cavities, Comparative value of, 215

—— ——, Bilateral, in the treatment of pulmonary tuberculosis, 491

—— ——, —— simultaneous, in the treatment of pulmonary tuberculosis, 502

—— ——, Effusion following, 522

Artificial pneumothorax, Fibrin bodies in the pleural space in a case of, 48

—— ——, intrapleural pressure and pulmonary collapse in, Relation of, 203

—— ——, Spontaneous pneumothorax (rupture of the lung) with abdominal symptoms in the course of, 98

Avian and human types, Studies on the dissociation of tubercle bacilli with special reference to the, 767

Avirulent tubercle bacilli, cutaneous reaction to, and immunity, The, 709

—— —— ——, inoculation of, effect of, on subsequent virulent infection in animals, The, 721

—— —— ——, virulent and, injected intracutaneously into immune and previously inoculated guinea pigs, The fate of, 694

—— —— ——, —— ——, —— —— —— normal animals, The fate of, 679

Bacilli, acid-fast, Saprophytic, from ureteral specimens, 91

——, tubercle, avirulent, cutaneous reaction to, and immunity, The, 709

——, ——, ——, inoculation of, effect of, on subsequent virulent infection in animals, The, 721

——, ——, behavior of, within the body, Studies on the. (See under "Studies," etc.), 833

——, ——, dissociation of, Studies on the, with special reference to the avian and human types, 767

——, ——, virulent and avirulent, injected intracutaneously into immune and previously inoculated guinea pigs, The fate of, 694

——, ——, —— —— ——, —— —— —— normal animals, The fate of, 679

——, ——, ——, cutaneous reaction to, local, in guinea pigs, The, 701

Bacillus tuberculosis H37, intratracheal infection with, Influence of local immunization of the lungs of guinea pigs upon, 328

Bed-rest, Leucocytic counts during, compared with those during exercise in tuberculous and nontuberculous cases, 473

Behavior of tubercle bacilli within the body, Studies on the. (See under "Studies," etc.), 833

Bilateral apical nontuberculous bronchiectasis, 61

—— artificial pneumothorax in the treatment of pulmonary tuberculosis, 491

—— simultaneous artificial pneumothorax in the treatment of pulmonary tuberculosis, 502

Biology, mechanics and, of tuberculous cavities, The, 639

Blood picture, Leucocytic, in active and inactive tuberculosis, 66

Bronchiectasis, nontuberculous, apical, Bilateral, 61

BROWN, LAWRASON, AND SAMPSON, H. L. Efficient collapse of a tuberculous lung following diaphragmatic hernia of the stomach, 322

BRUCKHEIMER, RALPH M., AND CORSELLO, JOSEPH N. Bilateral simultaneous artificial pneumothorax in the treatment of pulmonary tuberculosis, 502

BUNTA, EMIL. The relation of intrapleural pressure and pulmonary collapse in artificial pneumothorax, 203

BURNS, HERBERT A. A study of the incidence of tuberculosis in State institutions in Minnesota, 813

CANNON, PAUL R., AND FERGUSON, R. L. The influence of local immunization of the lungs of guinea pigs upon intratracheal infection with *Bacillus tuberculosis* H37, 328

Care of tuberculosis patients in general hospitals in Philadelphia. (Supplement), 105

CARMAN, H. FRANK. Bilateral artificial pneumothorax in the treatment of pulmonary tuberculosis, 491

Cavities, tuberculous, centrally located isolated pulmonary, treatment of, artificial pneumothorax and induced phrenic paralysis in the, Comparative value of, 215

——, ——, mechanics and biology of, The, 639

Central nervous system, tuberculomata of the, Relations between, and tuberculous changes in other organs, 302

Centrally located isolated pulmonary tuberculous cavities, treatment of, artificial pneumothorax and induced phrenic paralysis, Comparative value of, 215

Chest-wall, Tuberculous abscesses of the, as a complication of pulmonary tuberculosis, 228

Children, Tuberculin-positive, observed for various periods up to five years, 247

——, tuberculous, anthropometric study of, An, 348

Chronic vitamin-C deficiency, rôle of, in the pathogenesis of tuberculosis in the guinea pig, The, 585

Coexisting syphilis and tuberculosis in the light of current opinion and practice, Problem of, 31

COHN, MAURICE L., AND CORPER, H. J. Studies on the behavior of tubercle bacilli within the body. I. The fate of virulent and avirulent tubercle bacilli injected intracutaneously into normal animals, 679

——, —— ——, CORPER, H. J., AND DAMEROW, A. P. Studies on the behavior of tubercle bacilli within the body. II. The fate of virulent and avirulent tubercle bacilli injected intracutaneously into immune and previously inoculated guinea pigs, 694

——, —— ——, ——, —— ——, —— ——, —— ——. Studies on the behavior of tubercle bacilli within the body. III. The local cutaneous reaction to virulent tubercle bacilli in guinea pigs, 701

——, —— ——, ——, —— ——, —— ——, —— ——. Studies on the behavior of tubercle bacilli within the body. IV. The cutaneous reaction to avirulent tubercle bacilli and immunity, 709

COHN, MAURICE L., CORPER, H. J., AND DAMEROW, A. P. Studies on the behavior of tubercle bacilli within the body. V. The effect of the inoculation of avirulent tubercle bacilli on subsequent virulent infection in animals, 721

Collapse of a tuberculous lung, Efficient, following diaphragmatic hernia of the stomach, 322

——, pulmonary, Relation of intrapleural pressure and, in artificial pneumothorax, 203

Community, Cost of tuberculosis to industry, to the individual and to the, 558

Complication of pulmonary tuberculosis, Tuberculous abscesses of the chest-wall as a, 228

CORNISH, P. G., AND PETERS, LEROY S. Results in intrapleural pneumolysis, 44

CORPER, H. J., AND COHN, MAURICE L. Studies on the behavior of tubercle bacilli within the body. I. The fate of virulent and avirulent tubercle bacilli injected intracutaneously into normal animals, 679

——, ——, DAMEROW, A. P., AND COHN, MAURICE L. Studies on the behavior of tubercle bacilli within the body. II. The fate of virulent and avirulent tubercle bacilli injected intracutaneously into immune and previously inoculated guinea pigs, 694

——, ——, ——, ——, ——. Studies on the behavior of tubercle bacilli within the body. III. The local cutaneous reaction to virulent tubercle bacilli in guinea pigs, 701

——, ——, ——, ——, ——. Studies on the behavior of tubercle bacilli within the body. IV. The cutaneous reaction to avirulent tubercle bacilli and immunity, 709

——, ——, ——, ——, ——. Studies on the behavior of tubercle bacilli within the body. V. The effect of the inoculation of avirulent tubercle bacilli on subsequent virulent infection in animals, 721

CORSELLO, JOSEPH N., AND BRUCKHEIMER, RALPH M. Bilateral simultaneous artificial pneumothorax in the treatment of pulmonary tuberculosis, 502

CORYLLOS, POL N. The mechanics and biology of tuberculous cavities, 639

Cost of tuberculosis to industry, to the individual and to the community, The, 558

CROUCH, J. H. A study of tuberculosis deaths in Silver Bow County, Montana, 396

Current opinion and practice, Problem of coexisting syphilis and tuberculosis in the light of, 31

Cutaneous reaction, local, to virulent tubercle bacilli in guinea pigs, The, 701

—— —— to avirulent tubercle bacilli and immunity, The, 709

DAMEROW, A. P., COHN, MAURICE L., AND CORPER, H. J. Studies on the behavior of tubercle bacilli within the body. II. The fate of virulent and avirulent tubercle bacilli injected intracutaneously into immune and previously inoculated guinea pigs, 694

——, ——, ——, ——, ——. Studies on the behavior of tubercle bacilli within the body. III. The local cutaneous reaction to virulent tubercle bacilli in guinea pigs, 701

——, ——, ——, ——, ——. Studies on the behavior of tubercle bacilli within the body. IV. The cutaneous reaction to avirulent tubercle bacilli and immunity, 709

——, ——, ——, ——, ——. Studies on the behavior of tubercle bacilli within the body. V. The effect of the inoculation of avirulent tubercle bacilli on subsequent virulent infection in animals, 721

Deaths, tuberculosis, in Silver Bow County, Montana, study of, A, 396

Deficiency, vitamin-C, chronic, rôle of, in the pathogenesis of tuberculosis in the guinea pig, The, 585

DEVEER, J. ARNOLD, AND HOWARD, TASKER. Experimental tuberculous allergic serositis and its relationship to human polyserositis, 755

Diagnostic standards for tuberculosis, Tentative comprehensive, 800

Diaphragmatic hernia of the stomach, Efficient collapse of a tuberculous lung following, 322
Disappearance of specific skin hypersensitiveness in tuberculosis, The, 370
Dissociation of tubercle bacilli, Studies on the, with special reference to the avian and human types, 767
DUFAULT, PAUL, AND LAROCHE, ARMAND. Some considerations on the results of intrapleural pneumolysis, 219

Effect of irradiated milk on experimental inhalation tuberculosis in guinea pigs, 733
Effects of intravenous injections of lecithin on tuberculosis in the rabbit, The, 625
Efficient collapse of a tuberculous lung following diaphragmatic hernia of the stomach, 322
Effusion following artificial pneumothorax, 522
End-results of the surgical treatment of pulmonary tuberculosis, The, 533
Exercise, Leucocytic counts during bed-rest compared with those during, in tuberculous and nontuberculous cases, 473
Experimental inhalation tuberculosis in guinea pigs, irradiated milk on, Effect of, 733
—— tuberculous allergic serositis and its relationship to human polyserositis, 755

FERGUSON, R. L., AND CANNON, PAUL R. The influence of local immunization of the lungs of guinea pigs upon intratracheal infection with *Bacillus tuberculosis* H37, 328
Fibrin bodies in the pleural space in a case of artificial pneumothorax, 48
First steps in pneumolysis, 36
Five years, Tuberculin-positive children observed for various periods up to, 247
Following artificial pneumothorax, Effusion, 522
—— diaphragmatic hernia of the stomach, Efficient collapse of a tuberculous lung, 322

General hospitals in Philadelphia, tuberculosis patients in, The care of. (Supplement), 105
Germany, tuberculosis work in, Observations on, 549
GILBERT, CHARLES LOUIS, AND JONES, OSWALD R. Spontaneous haemopneumothorax, 165
GREENE, MERIDIAN R., STEINER, MORRIS, AND KRAMER, BENJAMIN. The rôle of chronic vitamin-C deficiency in the pathogenesis of tuberculosis in the guinea pig, 585
GRETHMANN, WOLFGANG, AND MAYER, EDGAR. Silicosis, 313
Group tuberculin-testing with MA-100, Statistical study of the results of, 78
Growing *Mycobacterium tuberculosis*, medium for, synthetic, inexpensive, An, 577
GUILD, C. STC., AND NELSON, MARION. The problem of coexisting syphilis and tuberculosis in the light of current opinion and practice, 31
Guinea pig, tuberculosis in the, pathogenesis of, rôle of chronic vitamin-C deficiency in, The, 585
—— pigs, cutaneous reaction, local, to virulent tubercle bacilli in, The, 701
—— ——, experimental inhalation tuberculosis in, irradiated milk on, Effect of, 733
—— ——, local immunization of lungs of, influence of, upon intratracheal infection with *Bacillus tuberculosis* H37, 328

Haemopneumothorax, Haemorrhagic pleurisy of tuberculous origin and, 185
——, Spontaneous, 165
Haemorrhagic pleurisy of tuberculous origin and haemopneumothorax, 185
HEISE, FRED H., AND STEIDL, JOHN. Bilateral apical nontuberculous bronchiectasis, 61
Hernia, diaphragmatic, of the stomach, Efficient collapse of a tuberculous lung following, 322
HETHERINGTON, H. W., AND LONG, ESMOND R. A tuberculosis survey in the Papago Indian area of Southern Arizona. (Supplement), 407

Hospitals, general, in Philadelphia, tuberculosis patients in, The care of. (Supplement), 105
HOWARD, TASKER, AND DEVEER, J. ARNOLD. Experimental tuberculous allergic serositis and its relationship to human polyserositis, 755
Human polyserositis, Experimental tuberculous allergic serositis and its relationship to, 755
—— types, avian and, Studies on the dissociation of tubercle bacilli with special reference to the, 767

Immune and previously inoculated guinea pigs, virulent and avirulent tubercle bacilli injected intracutaneously into, The fate of, 694
Immunity, cutaneous reaction to avirulent tubercle bacilli and, The, 709
Immunization, local, of the lungs of guinea pigs, Influence of, upon intratracheal infection with *Bacillus tuberculosis* H37, 328
Inactive tuberculosis, Leucocytic blood picture in active and, 66
Incidence of tuberculosis in State institutions in Minnesota, study of the, A, 813
Indian area, Papago, in Southern Arizona, tuberculosis survey in the, A. (Supplement), 405
Induced phrenic paralysis in the treatment of centrally located, isolated pulmonary tuberculous cavities, Comparative value of artificial pneumothorax and, 215
Industry, cost of tuberculosis to, to the individual and to the community, The, 558
Inexpensive synthetic medium for growing *Mycobacterium tuberculosis*, An, 577
Infection, intratracheal, with *Bacillus tuberculosis* H37, Influence of local immunization of the lungs of guinea pigs upon, 328
——, virulent, in animals, effect of inoculation of avirulent tubercle bacilli on subsequent, The, 721
Influence of local immunization of the lungs of guinea pigs upon intratracheal infection with *Bacillus tuberculosis* H37, The, 328
Infraglottic perforating tuberculous ulcer of the larynx, 75
Inhalation tuberculosis, experimental, in guinea pigs, irradiated milk on, Effect of, 733
Injections, intravenous, of lecithin, effects of, on tuberculosis in the rabbit, The, 625
Inoculation of avirulent tubercle bacilli, effect of, on subsequent virulent infection in animals, The, 721
Institutions, State, in Minnesota, incidence of tuberculosis in, study of the, A, 813
Interrelationships of tuberculosis, syphilis and antisyphilitic treatment, 10
Intestinal tuberculosis, Pneumoperitoneum in, 435
Intrapleural pneumolysis, Results in, 44
—— ——, —— of, Some considerations on the, 219
—— pressure and pulmonary collapse, Relation of, in artificial pneumothorax, 203
Intratracheal infection with *Bacillus tuberculosis* H37, Influence of local immunization of lungs of guinea pigs upon, 328
Intravenous injections of lecithin, effects of, on tuberculosis in the rabbit, The, 625
Irradiated milk, Effect of, on experimental inhalation tuberculosis in guinea pigs, 733
Isolated pulmonary tuberculous cavities, centrally located, treatment of, artificial pneumothorax and induced phrenic paralysis in the, Comparative value of, 215

JAFFÉ, R. H., AND SCHULTZ, A. The relations between tuberculomata of the central nervous system and tuberculous changes in other organs, 302

Tuberculomata of the central nervous system, Relations between, and tuberculous changes in other organs, 302
Tuberculosis, active and inactive, Leucocytic blood picture in, 66
——, cost of, to industry, to the individual and to the community, The, 558
—— deaths in Silver Bow County, Montana, study of, A, 396
——, diagnostic standards for, Tentative comprehensive, 800
—— in the guinea pig, pathogenesis of, rôle of chronic vitamin-C deficiency in, The, 585
—— —— —— rabbit, intravenous injections of lecithin on, effects of, The, 625
——, incidence of, in State institutions in Minnesota, study of the, A, 813
——, inhalation, experimental, in guinea pigs, irradiated milk on, Effect of, 733
——, intestinal, Pneumoperitoneum in, 435
——, Lung abscess and, 236
——, *Mycobacterium*, inexpensive synthetic medium for growing, An, 577
—— patients in general hospitals in Philadelphia, The care of. (Supplement), 105
——, Primary, 55
——, Problem of coexisting syphilis and, in the light of current opinion and practice, 31
Tuberculosis, pulmonary, complication of, Tuberculous abscesses of the chest-wall as a, 228
——, ——, resolution in, process of, The, 269
——, ——, treatment of, Bilateral artificial pneumothorax in the, 491
——, ——, —— ——, —— simultaneous artificial pneumothorax in the, 502
——, ——, —— ——, surgical, end-results of, The, 533
——, skin hypersensitiveness in, specific, disappearance of, The, 370
—— survey in the Papago Indian area in Southern Arizona, A. (Supplement), 405
——, syphilis and antisyphilitic treatment, Interrelationships of, 10
——, teaching of, The, 661
——, treatment in, Tannin, 101
—— work in Germany, Observations on, 549
Tuberculous abscesses of the chest-wall as a complication of pulmonary tuberculosis, 228
—— and nontuberculous cases, Leucocytic counts during bed-rest compared with those during exercise in, 473
—— cavities, centrally located isolated pulmonary, treatment of, artificial pneumothorax and induced phrenic paralysis in the, Comparative value of, 215
—— ——, mechanics and biology of, The, 639
—— changes in other organs, Relations between tuberculomata of the central nervous system and, 302
—— children, anthropometric study of, An, 348
—— lung, Efficient collapse of, following diaphragmatic hernia of the stomach, 322
—— origin, Haemorrhagic pleurisy of, and haemopneumothorax, 185
—— ulcer of the larynx, perforating, Infraglottic, 75
TWINAM, C. W. Tuberculous abscesses of the chest-wall as a complication of pulmonary tuberculosis, 228
Types, avian and human, Studies on the dissociation of tubercle bacilli with special reference to the, 767

Ulcer of the larynx, tuberculous, perforating, Infraglottic, 75
Ureteral specimens, Saprophytic acid-fast bacilli from, 91

Virulent and avirulent tubercle bacilli injected intracutaneously into immune and previously inoculated guinea pigs, The fate of, 694
—— —— —— —— —— —— —— ——
normal animals, The fate of, 679
—— infection in animals, effect of inoculation of avirulent tubercle bacilli on subsequent, The, 721
—— tubercle bacilli, cutaneous reaction to, local, in guinea pigs, The, 701
Vitamin-C deficiency, chronic, rôle of, in the pathogenesis of tuberculosis in the guinea pig, The, 585

WEINTRAUB, WILLIAM L. Tuberculin-positive children observed for various periods up to five years, 247
WEINZIRL, JOHN, AND WONG, SAM. An inexpensive synthetic medium for growing *Mycobacterium tuberculosis*, 577
WEISMAN, J. I. Effusion following artificial pneumothorax, 522
WELLS, ARTHUR H. Saprophytic acid-fast bacilli from ureteral specimens, 91
WHITE, JAMES A., JR., PALMER, THOMAS M., AND LAFFITTE, L. S. Tuberculin-testing with P. P. D. and O. T., 259
WHITNEY, JESSAMINE S., AND MCCAFFREY, ISABEL. A statistical study of the results of group tuberculin-testing with MA-100, 78
WIESNER, DOROTHY. The care of tuberculosis patients in general hospitals in Philadelphia. (Supplement), 105
WILSON, GEORGE C., AND MORRISS, W. H. The leucocytic blood picture in active and inactive tuberculosis, 66
WONG, SAM, AND WEINZIRL, JOHN. An inexpensive synthetic medium for growing *Mycobacterium tuberculosis*, 577
Work, tuberculosis, in Germany, Observations on, 549

ZAVOD, WILLIAM A. Fibrin bodies in the pleural space in a case of artificial pneumothorax, 48
